

PIC Bone

Imaging in Paediatric Osteomyelitis

Nov 2023

NEWSLETTER

NEWS BITES:

ASSOCIATE PIs WELCOME!

We warmly welcome Associate Principal Investigators (PIs) onto the study.

We encourage each site to recruit 2 Associate PIs to work with us.

The process and application for Associate PI are here:

NIHR ASSOC PI: EDUCATIONAL EVENT

Thursday 30th November 2023
9:00am until 12:30pm

Virtual Event- [Register Here](#)

Congratulations and Authorship Opportunities

A word from Tim Theologis & Dan Perry:

The team has done an excellent job in opening all these sites in record time!

Now we, the clinicians, need to **push forward with recruitment** for the prospective study and data entry for the retrospective study.

In particular, **the retrospective study is the gift that all trainees have been waiting for** - an easy study, where the task could be completed in a few days and there are simple criteria for PubMed-cited collaborators.

We are delighted to announce that the following staff members have each entered more than 100 records into the Retrospective study, or 20 records into the Prospective study

and will get PubMed cited collaborative authorship:

Retrospective study:

- Alder Hey:** Sarah Siner, Ha Phuong Do Le, Mansha Bhiryani
- Ipswich:** Deborah Beeby
- Birmingham:** Steven Abbey
- Sheffield:** Lutfi Rashid

Prospective study:

- Alder Hey:** Sarah Siner
- Bristol:** Ruth Bonsor
- Cambridge:** Kerry Meynell
- Oxford:** Sarah Hopton

Congratulations for all the hard work!

Name of Site	Months open	Recruitment*	
		Prospective	Retrospective
Alder Hey Children's	5	31	554
Ipswich	4.5	5	110
Birmingham Children's	3	N/A	183
Bristol	3	25	0
Cambridge	3	45	0
Cardiff	3	21	20
Chelsea & Westminster	2.5	0	3
Lewisham & Greenwich	2.5	0	59
Oxford	2.5	21	35
Dorset & Poole	2	6	46
Leicester	2	10	42
Maidstone	2	2	0
Sheffield	1.5	0	125
Guy's & St Thomas' / Evelina	1.5	0	0
St George's	1.5	7	0
Cornwall	1.5	1	12
Hull	1	1	0
South Tyneside	1	4	10
Hillingdon	0.5	0	7
Barts, London	<1	0	0
Manchester	<1	0	0
Epsom & St Helier	<1	0	0
Royal Berkshire	<1	0	0
Total		179	1206

*Data accurate as of 31 October 2023 for consented patients.

Recruitment Updates

FAQ of the Month:

Q: A potential PIC Bone study participant has provided their email address to be sent an electronic consent form. However, the patient has not yet completed the form. Who needs to chase this?

A: The central team will send out an email to the potential participant with a link to access the electronic consent form. However, it is then the local site's responsibility to follow up the potential participant. Should the patient not want to be part of the study, please email the central team at: picbone@ndorms.ox.ac.uk, who can make a note on the REDCap record.
